

800X1600mm

COLLECTION **2021**

The background of the image is a marbled pattern. It features a light, off-white base color with intricate, flowing veins of a muted brown or taupe color. The veins vary in thickness and direction, creating a complex, organic texture. In the upper right quadrant, there are more prominent, darker brown bands that appear to be layered or more saturated in color, adding depth to the overall design.

SMART MARBLE

Smart Marble is a flourishing centre for Italian design and slabs. Smart Marble is a new conglomerate that offers a rich array of products and services in terms of design and manufacturing of slabs. Smart Marble represents unparalleled technical, artistic and organizational standards that distinguish it from its peers.

Smart Marble is the essence of years of rigorous research. In its core efforts, Smart Marble epitomizes the urge to establish new standards and norms in the industry. Over decades of experience has gone into the making of this ambitious venture that us set to revolutionize art and craft of manufacturing slabs. Based on ground-breaking research, Smart Marble has conceptualized its ravishing designs and world-class manufacturing process.

WHAT IS **SMART MARBLE?**

**STRENGTH PLUS
LIGHTNESS,
VERY LARG SIZES
AND LOW THICKNESS.**

An innovative and Italian quality porcelain slabs, ideal for kitchen countertops, bathroom countertops, furniture, flooring and wall applications. The perfect combination of quality and wide collections of texture surface like marble, stone, wood, metal & concrete.

POSSIBILITIES

**ORIGINALITY
IS MUST.**

VISIONARY DESIGN

Smart Marble is the perfect combination of visionary design and technological performance, a creative partner anywhere in the world for any type of architectural project requiring distinction through unique, recognizable style.

INNOVATION FOR TOP ARCHITECTURE

Smart Marble stands for innovation that elevates architecture to a rare art form. It leverages design features in such a fashion that architects are able to unleash their creativity and give shape to spaces in an unhindered way. Ibis provides unparalleled innovation quotient for architecture to flourish.

INDUSTRIAL EXPERTISE FOR TECHNICAL PERFECTION

From inception of an idea to manufacturing it to perfection, Smart Marble possesses staggering industrial expertise for technical excellence. At Ibis, excellence is the only standard that we maintain.

INSPIRING DESIGNERS

The visionary design philosophy propels us towards the consortium of designers who are looking to push the frontiers of design. We collaborate with designers of international repute and provide the impetus for their design aspirations.

FINISH

GLOSSY

Different tones of cream, in line with warmer personalities. You can have beautiful spaces that embrace and create a home. We have marbles with great decorative possibilities that never fail. Some are calmer, other are more innovative. They are all beautiful and create a great range of radiant begies that shine with their own light.

✓ RIGHT

✗ WRONG

STORAGE

We should use a forklift truck, at least 2,5 mts. long, with the forks positioned in the largest width position, in order to handle the pallet on a proper way. Under normal conditions, the forks are positioned in the middle of the long side of the pallet, as they must hold the whole depth of the pallet. To allow the extraction of the slabs in a safe and easy way, it is recommended to position the pallets in a suitable area where the lift truck can be moved around all sides of the pallet.

HANDLING SLAB

IBIS's Extra large format slabs arrive in oversized crates, which require specific handling equipment. To prevent damage from occurring during forklift operation, specific fork sizes must be used. For example, to handle a crate of 135cm x 305cm tiles from the side, 112cm/ 44" long forks are recommended.

To handle the same crate from the narrow end requires forks that are at least 213cm/ 84" long. Lifting multiple crates with longer forks may require forklifts with a greater lift capacity.

Specialised tools and equipment are currently available for the handling and installation of large porcelain surfaces. Innovative trowels with unique notch configurations can help increase the consistency of the mortar coverage on the back of the tile.

HANDLING EQUIPMENT

Handling device to free move 150X150 Slabs (use 2 for 305cm Slab)

Double Suction Cup 115 MM

Modular Bench BM 180

LEVELLING EQUIPMENT

RLS Clips for Tiles 10-12 MM thick (½" - ¾") - 400 pcs bag
